Elvis D.

A product Engineer, with taste in creativity.

I'm Elvis, Code is my craft, but design is what I do for the love of it. I build products for a living, and in the hours around that, I'm usually making something: a layout, a visual, an idea

my colours, in case you wondered:

#EBE8DB #D76C82 #B03052 #3D0301

chapter 1

how I got here

2021

Started B.E in AI & Data Science

Fr. Conceicao Rodrigues College of Engineering , Mumbai

Feb 2023

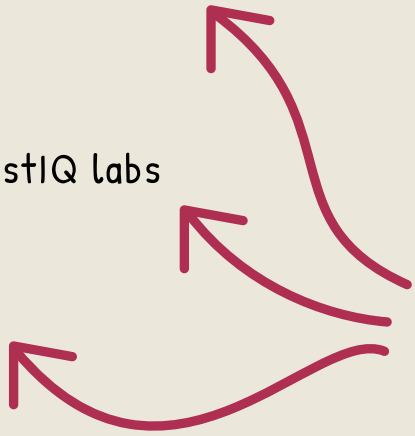

Backend developer @MystIQ labs

APIs, data pipelines, AWS & Docker

Jan 2024

AI/ML @Lawyantra

OpenAI + LangChain prototypes

(yes, these overlap!)

Sept 2024

Product Engineer @Brain Bolt

Idea to production, interface and all (remote)

Seeing where life takes me

chapter 2

Things I Made

(the big one!)

CulinaryNomics

Restaurant analytics as stories owners can read in seconds. Made at Brain Bolt.

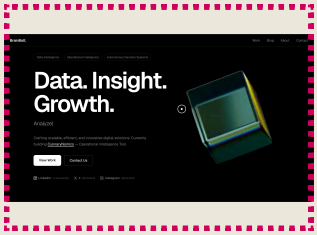

React · TypeScript · Django · Motion

Brain Bolt

Company Landing Page. Minimalistic. modern. Dark.

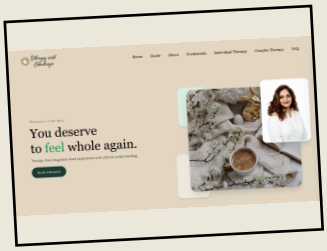

Next js · Tailwind · Motion

TherapyWithAashraya

A calm, trust-first site for a Mumbai therapist.

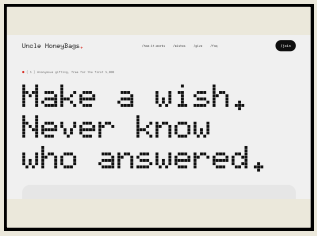

Next.js · Landing design · therapy

UncleMoney Bags

An anonymous wish-gifting concept. Quiet, typographic, a little emotional.

Next.js · product design · concept

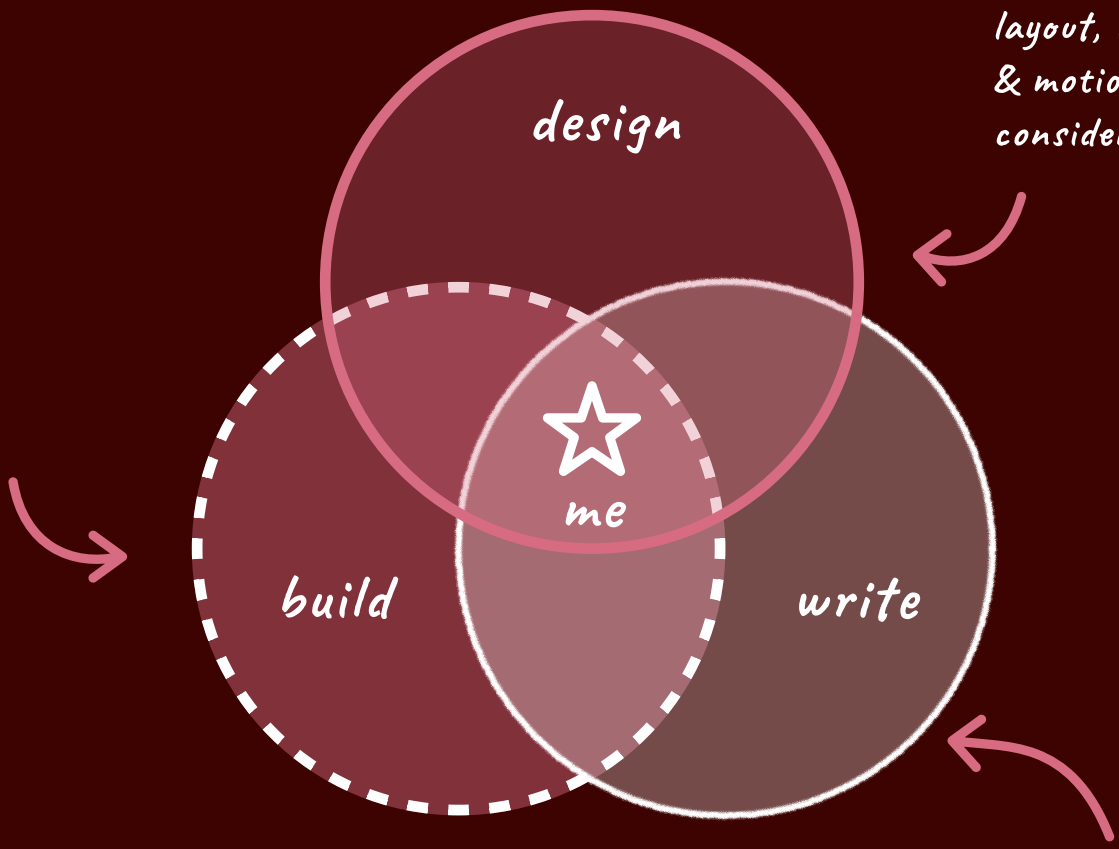

And Many More....

chapter 3

What i bring

one person, all three

case file: CulinaryNomics

the brief

Restaurant data: dense and hard to read.

the idea

Turn numbers into visual stories owners get at a glance.

the result

70% time saved, error Δ30% corrected, consolidated view displayed

chapter 4

skills, tools & gears

my skills

End-to-end development

Rapid Prototyping

Product Problem-Solving

Wireframing & Prototyping

Typography & Color Theory

Creative Coding

I design with

Figma

Canva

Affinity

Claude design

I build with

Python

Django

Next js

React js

Docker

Tailwind

AWS

Redis

celery

And Many More...
